# Report of Independent Auditors

The Board of Directors
Financial Guaranty Insurance Company

We have audited the accompanying statutory-basis financial statements (the "financial statements") of Financial Guaranty Insurance Company (the "Company"), which comprise the balance sheets as of December 31, 2017 and 2016, and the related statements of operations, changes in capital and surplus and cash flow for the years then ended, and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the New York State Department of Financial Services ("NYSDFS"), as well as those accounting practices detailed in the NYSDFS Guidelines. Management also is responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

A member firm of Ernst & Young Global Limited

**Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles**

As described in Note 2, to meet the requirements of the NYSDFS the financial statements have been prepared in conformity with accounting practices prescribed or permitted by the NYSDFS, as well as those accounting practices detailed in the NYSDFS Guidelines, which practices differ from U.S. generally accepted accounting principles. The variances between such practices and U.S. generally accepted accounting principles are described in Note 2. The effects on the accompanying financial statements of these variances are not reasonably determinable but are presumed to be material.

**Adverse Opinion on U.S. Generally Accepted Accounting Principles**

In our opinion, because of the effects of the matter described in the preceding paragraph, the statutory-basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of Financial Guaranty Insurance Company at December 31, 2017 and 2016, or the results of its operations or its cash flows for the years then ended.

**Opinion on Statutory-Basis of Accounting**

However, in our opinion, the statutory-basis financial statements referred to above present fairly, in all material respects, the financial position of Financial Guaranty Insurance Company at December 31, 2017 and 2016, and the results of its operations and its cash flows for the years then ended in conformity with accounting practices prescribed or permitted by the NYSDFS, as well as those accounting practices detailed in the NYSDFS Guidelines.

## 1. Organization and Background

Financial Guaranty Insurance Company (the "Company" or "FGIC"), a New York stock insurance corporation, is a wholly owned subsidiary of FGIC Corporation ("FGIC Corp."), a Delaware corporation which emerged from a proceeding under Chapter 11 of the United States Bankruptcy Code on April 19, 2013.

FGIC previously issued financial guaranty insurance policies insuring public finance, structured finance and other obligations, but it is no longer engaged in the business of writing new insurance policies. FGIC operates in accordance with the terms and conditions set forth in the Rehabilitation Plan (defined below). FGIC's primary regulator is the New York State Department of Financial Services (the "NYSDFS"). FGIC UK Limited ("FGIC UK"), a wholly owned United Kingdom insurance subsidiary of FGIC, previously issued financial guaranties covering public finance, structured finance and other obligations, but it is no longer engaged in the business of writing new financial guaranties. FGIC UK's primary regulator is the UK Prudential Regulation Authority.

On June 28, 2012, the Supreme Court of the State of New York (the "Rehabilitation Court") issued an order pursuant to Article 74 of the New York Insurance Law (the "NYIL") placing FGIC in rehabilitation and appointing the Superintendent of Financial Services of the State of New York as FGIC's rehabilitator.

On June 11, 2013, the Rehabilitation Court approved the First Amended Plan of Rehabilitation for FGIC, dated June 4, 2013, together with all exhibits and the plan supplement thereto (as the same may be amended from time to time, collectively, the "Rehabilitation Plan") in an order issued pursuant to Article 74 of the NYIL. The Rehabilitation Plan became effective on August 19, 2013 (the "Effective Date"), whereupon FGIC's rehabilitation proceeding terminated. By notice dated on the Effective Date, FGIC's rehabilitator set the initial cash payment percentage ("CPP") at 17%.

On the Effective Date, FGIC emerged from its rehabilitation proceeding as a solvent insurance company under the NYIL, with its policies restructured in a manner intended to ensure it remains solvent and the Rehabilitation Plan became the exclusive means for resolving and paying (i) all policy claims, whenever arising, (ii) all other claims arising during, or relating to, the period prior to the Effective Date and (iii) all equity interests in FGIC in existence as of the commencement date of FGIC's rehabilitation proceeding (June 28, 2012), in each case other than claims (including policy claims) paid in full by FGIC prior to such date. Claims arising during or relating to the period on and after the Effective Date (other than policy claims) are not covered by the Rehabilitation Plan and will be resolved and paid by FGIC in the ordinary course of business.

**1. Organization and Background (continued)**

As of the Effective Date, any and all policies in force as of the Effective Date (except for certain policies that were novated on that date) were automatically modified by the Rehabilitation Plan.

The Rehabilitation Plan, including the restructured policy terms attached to the Rehabilitation Plan as Exhibit B (the "Restructured Policy Terms"), supersedes any and all provisions of each policy that are inconsistent with the Rehabilitation Plan. FGIC is responsible for administering, reviewing, verifying, reconciling, objecting to, compromising or otherwise resolving all claims (including policy claims) not resolved prior to the Effective Date, in each case in compliance with the Rehabilitation Plan and any applicable guidelines the NYSDFS has issued or may issue to carry out the purposes and effects of the Rehabilitation Plan ("NYSDFS Guidelines").

With respect to any policy claim permitted by FGIC, pursuant to the Rehabilitation Plan and the applicable policy (as modified by the Rehabilitation Plan), FGIC is obligated to pay in cash to the applicable policy payee only an upfront amount equal to the product of the then-existing CPP and the amount of such permitted policy claim (subject to any setoff rights FGIC may have). The portion of such permitted policy claim not paid or deemed to be paid by FGIC generally comprises a deferred payment obligation ("DPO") with respect to the applicable policy. The DPO with respect to any policy generally represents the aggregate amount of all permitted policy claims under such policy minus the aggregate amount paid, or deemed to be paid, in cash by FGIC with respect to such policy (other than DPO Accretion, defined below) from and after the Effective Date, subject to further adjustments as provided in the Rehabilitation Plan. From and after the Effective Date, each policy with an outstanding DPO accrues an amount ("DPO Accretion") as described in Note 2, Significant Accounting Policies, under the sub-heading "Loss Reserves – DPO Accretion." The DPO for any policy and any related DPO Accretion shall only be payable by FGIC when, if and to the extent provided in the Restructured Policy Terms and the Rehabilitation Plan. In the absence of an upward adjustment of the CPP, FGIC shall have no obligation to pay any portion of any DPO or DPO Accretion.

FGIC is required to re-evaluate the CPP (at least annually) pursuant to the procedures set forth in the Restructured Policy Terms to determine whether the CPP should remain the same or be adjusted upward or downward (each, a "CPP Revaluation"). All CPP Revaluations require review and approval by the board of directors of FGIC, and any change in the CPP (among other things) requires the approval of the NYSDFS. In December 2017, in connection with FGIC's annual CPP Revaluation for 2017, the NYSDFS approved an upward adjustment to the CPP from 25% to 33%. In October 2016, in connection with FGIC's annual CPP Revaluation for 2016, the NYSDFS approved an upward adjustment to the CPP from 22% to 25%.

**1. Organization and Background (continued)**

The percentage of permitted policy claims that FGIC ultimately pays in cash in accordance with the Rehabilitation Plan, and the timing of any such payments, are subject to various factors and the outcome of future events, including the performance of FGIC's insured and investment portfolios and the results of FGIC's litigation and other loss mitigation efforts, and no assurance can be given with respect to the amount of any such percentage or the timing of any such payments. Based on the magnitude of FGIC's accrued and projected policy claims, while the CPP may further increase over time, FGIC expects to make payments in cash pursuant to the Rehabilitation Plan of only a fractional portion of its permitted policy claims and it does not expect to make any payments pursuant to the Rehabilitation Plan with respect to non-policy claims or equity interests.

References to and descriptions of provisions of the Restructured Policy Terms, the Rehabilitation Plan (and related agreements) and orders of the Rehabilitation Court included in these financial statements are merely summaries thereof, and do not contain all information necessary to fully understand such provisions and orders. Please refer to the specific terms, requirements and conditions of the Restructured Policy Terms, the Rehabilitation Plan (and related agreements) and orders of the Rehabilitation Court for a full understanding thereof, which in all cases shall govern, rather than any summary description contained in these financial statements.

**2. Significant Accounting Policies**

The accompanying financial statements of the Company have been prepared in conformity with statutory accounting practices prescribed or permitted by the NYSDFS as well as those accounting practices detailed in NYSDFS Guidelines, as described below ("SAP"). The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates, and those differences could be material.

SAP differs in some respects from accounting principles generally accepted in the United States ("GAAP"). The effects of the variances from GAAP on the accompanying statutory-basis financial statements have not been determined for the years ended December 31, 2017 and 2016, but are presumed to be material. Significant accounting policies and variances from GAAP, where applicable, are as follows:

**2. Significant Accounting Policies (continued)**

**NYSDFS Guidelines**

Pursuant to the provisions of the Rehabilitation Plan, the NYSDFS has issued NYSDFS Guidelines that define certain accounting practices for FGIC for reporting periods ending on or after the Effective Date. In accordance with such NYSDFS Guidelines, for reporting periods ending on or after the Effective Date, FGIC records loss reserves at the applicable reporting date in an amount equal to the excess of (i) the amount of FGIC's admitted assets minus FGIC's minimum required statutory surplus to policyholders at the reporting date (the "Minimum Surplus Amount," currently $66.4 million) over (ii) the sum of FGIC's statutory reserves excluding loss reserves (e.g., unearned premiums, contingency reserves, loss adjustment expense reserves) and other liabilities. In accordance with such NYSDFS Guidelines, the loss reserve amount comprises the total amount of (i) the sum, net of reinsurance, of (x) the total amount of all policy claims submitted to FGIC in accordance with the Rehabilitation Plan that are unpaid (excluding any portions of such policy claims that are being disputed by FGIC) and (y) the net present value of the total amount of all policy claims that the Company expects to receive in the future in accordance with the Rehabilitation Plan (using the prescribed statutory discount rate which is based on the average rate of return on FGIC's admitted assets) (such sum is referred to as the "Claims Reserve"), (ii) the DPO for all policies at such reporting date and (iii) the DPO Accretion for all policies at such reporting date, minus an adjustment (the "Policy Revision Adjustment") in an amount that will permit FGIC to report a surplus to policyholders at such reporting date equal to the Minimum Surplus Amount (See also Note 8, Loss Reserves).

**Cash and Cash Equivalents**

The Company considers all bank deposits and all certificates of deposit with maturities of one year or less at the date of purchase to be cash. The Company considers highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less to be cash equivalents. Effective December 31, 2017, all money market mutual funds registered under the Investment Company Act of 1940 and regulated under rule 2a-7 of such Act, previously classified as short-term investments, are considered cash equivalents. Cash and cash equivalents other than money market mutual funds are carried at cost, which approximates fair value. Money market mutual funds are recorded at fair value. Changes in carrying values of money market mutual funds are recorded as changes in unrealized capital gains/losses, a component of surplus. Under GAAP, these securities are adjusted to net asset value and included in cash and cash equivalents.

## 2. Significant Accounting Policies (continued)

### Investments

Investments are valued in accordance with the requirements of the National Association of Insurance Commissioners ("NAIC").

Bonds with an NAIC designation of 1 or 2 determined by the Securities Valuation Office ("SVO") are stated at amortized cost, with premiums and discounts amortized to net income using the effective interest method over the remaining term of the securities. Bonds with an NAIC designation of 3 through 6 determined by the SVO are stated at the lower of amortized cost or fair value. Under GAAP, bonds are designated at purchase as either held-to-maturity, available-for-sale or trading. Bonds designated as held-to-maturity are reported at amortized cost. Bonds designated as available-for-sale are reported at fair value with unrealized gains and losses reported in stockholders' equity, net of tax. Bonds designated as trading are reported at fair value with unrealized gains and losses reported in net investment income.

Common stocks include shares of mutual funds that invest principally in common stocks. Common stocks (excluding investments in common stock of subsidiary, controlled and affiliated ("SCA") entities (which are included in the balance sheet as common stock – investment in subsidiaries)) are recorded at fair value. Changes in carrying values are recorded as changes in unrealized capital gains/losses, a component of surplus. Dividends are reported in net investment income. Under GAAP, investments in such common stocks are designated at purchase as either available-for-sale or trading. Common stocks designated as available-for-sale are reported at fair value with unrealized gains or losses reported as a component of stockholders' equity, net of tax. Common stocks designated as trading are reported at fair value with unrealized gains and losses reported in net investment income.

Under SAP, investments in common stock of SCA entities are recorded based on the audited underlying equity adjusted to a statutory basis to the extent admissible under Statement of Statutory Accounting Principles ("SSAP") 97, *Investments in Subsidiary, Controlled, and Affiliated Entities, A Replacement of SSAP No. 88* and subject to applicable limitations under the NYIL. One such limit restricts the amount reported as investments in common stock of SCA entities to 50% of the Company's statutory surplus to policyholders. Under SAP, the reporting entity cannot admit as an asset the investment in an SCA entity for which audited financial statements are not prepared. Changes in the values of SCA entities are recorded as unrealized gains or losses and reported as a component of unassigned deficit. Under GAAP, SCA entities meeting certain criteria are consolidated with the Company.

**2. Significant Accounting Policies (continued)**

Surplus notes have an NAIC designation of 1 and are stated at amortized cost unless the issuer of the note is under regulatory action, with premiums and discounts amortized to net income using the effective interest method over the remaining term of the notes. If the issuer is under regulatory action, the surplus notes must be stated at zero until the regulatory action ends. Under GAAP, these notes are stated at fair value.

Short-term investments are stated at amortized cost, which approximates fair value. Realized gains and losses on the sale of short-term investments are determined based on the specific identification method and are reflected in the determination of net income.

Included within bonds are loan-backed and structured securities, which are valued at amortized cost using the interest method, including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys or internal estimates and are based on the current interest rate and economic environment. All such securities are adjusted for the effects of changes in prepayment assumptions on the related accretion of discount or amortization of premium of such securities using the retrospective method.

**Other-Than-Temporary Impairments**

For all investments in bonds (including loan-backed and structured securities) acquired prior to October 1, 2015, a decline in the fair value of any such security below its cost basis as of a reporting date is automatically treated as an other-than-temporary impairment ("OTTI").

FGIC conducts an impairment review no less than quarterly for all investments in bonds (including loan-backed and structured securities) and surplus notes acquired on or after October 1, 2015, and for all investments in common stocks, in each case which have fair values lower than their respective cost bases as of the review date. The analysis of a security's decline in value is performed at the lot level. FGIC first determines whether it intends to sell the security. For loan-backed and structured securities, FGIC also determines whether it is more likely than not that it will be unable to hold the security for a period of time to recover its amortized cost basis. The impairment for any security that FGIC determines it intends to sell or, in the case of loan-backed and structured securities, it is more likely than not that it will be unable to hold for a period of time to recover its amortized cost basis, is considered to be an OTTI.

**2. Significant Accounting Policies (continued)**

For bonds (other than loan-backed and structured securities), surplus notes and common stocks that FGIC does not intend to sell, FGIC conducts a quantitative and qualitative impairment review that requires management to make numerous judgments, estimates and assumptions concerning relevant factors, such as (i) the magnitude and duration of the impairment, and (ii) possible explanations for the impairment (e.g., general interest rate, credit spread, market index movements; issuer-specific developments such as material negative credit events (e.g., actual or threatened bankruptcy or similar proceedings or debt restructurings); and security-specific developments such as existing or projected monetary and material non-monetary defaults and credit rating downgrades). Based on this review, FGIC determines whether the decline in fair value for any such security is temporary or an OTTI, with the decline in fair value for any such security that does not satisfy the specified quantitative or qualitative criteria treated as temporary.

If the decline in fair value for any such bond or surplus note is determined to be temporary, an unrealized loss is not recorded. If the decline in fair value for any common stock is determined to be temporary, FGIC records it as an unrealized loss as common stocks are recorded at fair value. If the decline in fair value for any such bond, surplus note or common stock is treated as or determined to be an OTTI, the carrying value of such security is reduced to fair value as of the reporting date, establishing a new cost basis, with a charge to realized loss at the reporting date. Such realized losses are recorded through income and the new cost basis is not adjusted for subsequent recoveries in fair value. Amortization of any premium or discount from the date bonds or surplus notes are written down is based on the new cost basis.

For loan-backed and structured securities (e.g., asset-backed and mortgage-backed securities) that the Company does not intend to sell and has not determined that it is unable to hold until recovery of their amortized cost bases, the Company estimates the cash flows expected to be collected over the term of each security as of the review date and calculates the present value of those expected cash flows using a discount rate equal to the original effective yield of the security, or in the case of floating rate securities, the then-current coupon. If the present value of future expected cash flows is less than the amortized cost basis of the security, the carrying value of such security is reduced to such present value as of the reporting date, establishing a new cost basis, with a charge to realized loss at such date for the entire reduction. Such realized losses are recorded through income and the new cost basis is not adjusted for subsequent recoveries in fair value. Amortization of premium or discount, as applicable, from the date the securities are written down is based on the new cost basis.

**2. Significant Accounting Policies (continued)**

**Other Invested Assets**

Other invested assets include FGIC-insured securities purchased by FGIC and securities or other non-cash assets purchased, received or recovered by FGIC, in connection with its loss mitigation efforts.

For FGIC-insured securities purchased in connection with loss mitigation efforts, the value of the security comprises two components: (i) the portion representing the value of FGIC's insurance (the "Insurance Portion") and (ii) the remaining portion representing the value of the security without giving credit for FGIC's insurance (the "Non-Insurance Portion"). For each security, the Company estimates the value of the Insurance Portion using internally developed formulas, with the remainder of the value being the Non-Insurance Portion. The Insurance Portion is included in losses incurred and is deducted from the amortized cost and fair value of these FGIC-insured securities at the time of purchase and at each reporting date, respectively. For each FGIC-insured security purchased in connection with loss mitigation efforts, FGIC reduces the related Claims Reserve at each reporting date on a pro rata basis for the ratable portion of the securities purchased by FGIC. The reduction in Claims Reserves is also included in losses incurred.

The remaining Non-Insurance Portion of each purchased security is classified as other invested assets in the balance sheet and is subject to impairment analysis at each subsequent balance sheet date. Realized gains or losses and OTTI on the Non-Insurance Portion of these securities are recorded in other income. The amortized cost and fair value of these securities are shown excluding the Insurance Portion. Under SAP, these securities are carried at the lower of amortized cost or fair value as these securities have an NAIC designation of 3 through 6. Under GAAP, these securities are carried at fair value.

For securities or other non-cash assets purchased, received or recovered by FGIC in connection with its loss mitigation efforts, FGIC records the asset at the lower of cost or fair value at acquisition. FGIC generally does not consider the payment of claims to be included in the determination of the cost basis of assets purchased, received or recovered in connection with such claims. Realized gains or losses and OTTI on these assets are recorded in other income. Under SAP, these assets are carried at the lower of amortized cost or fair value. Under GAAP, these securities are carried at fair value.

**2. Significant Accounting Policies (continued)**

**Fair Value Measurements**

The Company discloses the fair value of its financial instruments in accordance with SSAP 100, *Fair Value Measurements* ("SSAP 100"), which requires the use of a fair value hierarchy with the highest priority given to quoted prices in active markets. The general disclosure requirements are for those items measured and reported at fair value in the balance sheet. Securities that are reported at amortized cost, but for which amortized cost equals fair value (such as a bond with a recognized OTTI on the reporting date) would not be included in the disclosures. SSAP 100 also requires certain disclosures of fair value measurements and valuation techniques, where practicable to determine, for financial instruments not carried at fair value in the balance sheet. SSAP 100 does not require companies to distinguish between recurring and non-recurring fair value measurements, which is required under GAAP.

**Premium Revenue Recognition**

For SAP, premiums collected in a single payment at policy inception are earned in proportion to the scheduled principal and interest payments over the legal lives of the insured bonds. Premiums collected periodically are reflected in income pro rata over the period covered by the premium payment. Under GAAP, premiums are earned in proportion to the amount of insurance protection provided over the expected life for homogeneous pools and over the legal life for non-homogeneous pools of policies. Ceded premiums are earned in a manner consistent with the underlying policies. Under SAP, the liability for unearned premiums is reflected net of reinsurance. Under GAAP, ceded unearned premiums are reported as an asset. When an obligation insured by the Company is refunded prior to the end of the expected policy coverage period, any remaining unearned premium is recognized at that time. A refunding occurs when an insured obligation is repaid or retired in full or legally defeased. Net premiums earned on refundings were $3.8 million and $6.7 million for the years ended December 31, 2017 and 2016, respectively.

**Non-admitted Assets**

Certain assets are charged directly against surplus, but are reflected as assets under GAAP. Such assets principally include adjusted gross deferred tax assets and property and equipment. The Company recorded non-admitted assets of $11.5 million and $0.7 million as of December 31, 2017 and 2016, respectively.

**2. Significant Accounting Policies (continued)**

**Loss Reserves**

Loss reserves comprise the total amount of (i) the Claims Reserve, (ii) the DPO for all policies and (iii) the DPO Accretion for all policies, minus the Policy Revision Adjustment. The Policy Revision Adjustment is prescribed by NYSDFS Guidelines and reflects the reduction in the loss reserve components necessary to reflect a Minimum Surplus Amount of $66.4 million (See "NYSDFS Guidelines" above). Under GAAP, unpaid losses are reported on a gross basis (i.e., before reinsurance), and are discounted based on the risk-free rate for the anticipated shortfall in excess of the related unearned premium revenue, and the Policy Revision Adjustment is not recognized. The Company's loss expenses are disclosed in Note 8, Loss Reserves.

*Claims Reserve*

The Claims Reserve is calculated on a policy-by-policy basis, net of reinsurance, as of the reporting date. The Claims Reserve is adjusted to reflect the Company's potential obligations in respect of reimbursements received, as well as the projected reimbursements the Company expects to receive in the future, in each case determined as of the reporting date. For each FGIC-insured security purchased (or for which FGIC has effectively stripped its insurance) in connection with loss mitigation efforts, FGIC reduces the related Claims Reserve at each reporting date on a pro rata basis for the ratable portion of the securities purchased (or stripped) by FGIC. The reduction in Claims Reserves is also included in losses incurred. Permitted policy claims that have been paid (or deemed paid) by FGIC in accordance with the Rehabilitation Plan are not included in the Claims Reserve; the portions of such claims not paid or deemed paid in cash, however, are reflected in the DPO balance.

The net present value of the total amount of all policy claims the Company expects to receive in the future is determined for each policy using internally developed cash flow projections or other methods for estimating losses and represents an estimate of the anticipated shortfall between (1) the insured payments of principal and interest due on the insured obligations and (2) the insured payments of principal and interest due on the insured obligations that are anticipated to be made by the issuer or other obligor of the insured obligations, including payments from the projected cash flows from, and proceeds to be received on, any collateral or other security supporting the insured obligation and/or other anticipated recoveries and/or premiums expected to be earned and/or collected in the future.

**2. Significant Accounting Policies (continued)**

*DPO*

When FGIC pays (or is deemed to have paid) in cash the CPP of a permitted policy claim, the remaining unpaid balance of such permitted policy claim is added to the DPO under the related policy.

If, as a result of any CPP Revaluation, the CPP is adjusted upward, FGIC is obligated to pay the applicable policy payee in respect of the DPO under each policy an amount, determined in accordance with the Rehabilitation Plan, to true up the amounts of cash previously paid (or deemed to have been paid) by FGIC in respect of permitted policy claims paid at the prior CPP, which payment will generally reduce the DPO by an equal amount.

*DPO Accretion*

Under the Restructured Policy Terms, each policy with an outstanding DPO accrues DPO Accretion in accordance with the Rehabilitation Plan based on such DPO at a rate of 3% per annum (on a daily basis on the basis of a 365-day year). DPO Accretion is calculated using the DPO with respect to the applicable policy as of the preceding June 30 or, with respect to the first year in which there is a DPO under such policy and until the next June 30, the first day on or after the Effective Date on which the DPO exists (the "First Payment Date"). DPO Accretion for any policy with a DPO commences on the First Payment Date for such policy and continues until such time (if ever) as the DPO for such policy is permanently reduced to zero. All DPO Accretion is calculated on a simple basis rather than a compound basis (i.e., no DPO Accretion accretes based on accumulated DPO Accretion). No DPO Accretion is added to a DPO, but is recorded separately. If, as a result of any CPP Revaluation, the CPP is adjusted upward, FGIC will pay in cash to the applicable policy payee a portion of the DPO Accretion under each policy having a DPO in an amount determined in accordance with the Rehabilitation Plan, which will reduce the DPO Accretion balance.

**Loss Adjustment Expense Reserve**

A reserve for loss adjustment expense is recorded as a liability on the balance sheet. The loss adjustment expense reserve represents management's best estimate of the ultimate future net cost, determined using internally developed estimates, of the efforts involved in managing and mitigating existing and future policy claims. Such loss adjustment expense reserve is not subject to a Policy Revision Adjustment. The Company's loss adjustment expense reserve is disclosed in Note 9, Loss Adjustment Expense Reserves.

## 2. Significant Accounting Policies (continued)

### Contingency Reserves

Contingency reserves are computed on the basis of statutory requirements for the security of all policyholders, regardless of whether loss contingencies actually exist. The Company establishes contingency reserves in accordance with the NYIL, which is consistent with the requirements of SSAP 60, *Financial Guaranty Insurance*. Changes in the contingency reserve are charged directly to surplus. Under GAAP, contingency reserves are not required.

During 2017 and 2016, the Company was granted permission by the NYSDFS to decrease contingency reserves by $21.9 million and $30.9 million, respectively.

### Federal Income Taxes

Deferred tax assets and liabilities are recognized to reflect the tax impact attributable to temporary differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases.

Deferred tax assets and liabilities are measured using statutory tax rates expected to apply to taxable income in the years in which temporary differences are expected to be recovered or settled and are recorded as a component of surplus. Under SAP and GAAP, a valuation allowance is established for deferred tax assets that are not expected to be realized. Under SAP, a net deferred tax asset is subject to limitations and may be non-admitted.

### Reinsurance

A liability is recorded for uncollateralized amounts due from unauthorized reinsurers. Changes in this liability are charged or credited directly to unassigned surplus. Amounts due from unauthorized reinsurers that are secured by letters of credit or trust agreements are not included in this liability. Under GAAP, an allowance for amounts deemed uncollectible would be established through a charge to earnings.

Ceded loss reserves are calculated as reductions of the related gross claims reserves rather than assets, as would be required under GAAP. Prospective ceded losses are accounted for on a basis consistent with that used in accounting for the original policies issued, the terms of the reinsurance contracts, and the terms of the Rehabilitation Plan, which provides that payments are due in full from reinsurers with respect to any permitted policy claims covered by the reinsurance without

**2. Significant Accounting Policies (continued)**

regard to (i) the timing or amount of any cash payment made by FGIC on the underlying claims, (ii) the modification pursuant to the Rehabilitation Plan of FGIC's obligations to pay such permitted policy claims in cash or (iii) any language in the applicable reinsurance agreements that would contradict this result. The net claims reserve amount is reduced to give effect to such reinsurance. Ceded loss adjustment expense reserves and unearned premiums ceded to reinsurers have been reported as reductions of the related reserves rather than as assets, as would be required under GAAP. Prospective reinsurance premiums and loss adjustment expenses are accounted for on bases consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts.

**Consolidation**

The accounts and operations of the Company's subsidiaries are not consolidated with the accounts and operations of the Company, as would be required under GAAP.

As part of its structured finance business, the Company may have insured debt obligations or certificates issued by special purpose entities that could be considered variable interest entities ("VIE"). Under SAP, the Company does not consolidate the assets and liabilities of a VIE. Under GAAP, the Company would be required to consolidate the assets and liabilities of a VIE if the Company were to determine that it was the primary beneficiary because it directs significant activities of and holds an economic interest in the entity.

**Foreign Currency Translation**

The Company had foreign branches in the United Kingdom and France that were deregistered in 2016. The Company had determined that, prior to deregistration, these branches were foreign operations with transactions in their respective local currencies, which were their functional currencies. Once deregistered, the assets and liabilities were included in FGIC's operations with the U.S. dollar as functional currency.

**Statements of Cash Flow**

The statutory-basis statements of cash flow are presented in a specified format, which differs from the format prescribed under GAAP. Cash, cash equivalents, and short-term investments in the statements of cash flow represent cash balances and investments with initial maturities of one year or less. Under GAAP, the corresponding caption of cash and cash equivalents includes cash balances and investments with initial maturities of three months or less.

**2. Significant Accounting Policies (continued)**

**Comprehensive Income**

Comprehensive income is not determined under SAP.

**Property and Equipment**

Property and equipment consists of office furniture, fixtures, computer equipment and software that are non-admitted assets under SAP. Under GAAP, these assets are reported at cost less accumulated depreciation.

**New Accounting Pronouncements**

In November 2017, the NAIC adopted SSAP No. 100 – Revised, *Fair Value Measurements* ("SSAP 100R"), to expand the use of the net asset value ("NAV") as a practical expedient for measuring fair value in specific circumstances, with additional disclosures for investments reported using NAV. The revised standard is effective January 1, 2018, with early adoption permitted. FGIC expects to adopt SSAP 100R in 2018, but does not expect its adoption to have a material effect on the Company's statutory-basis financial statements other than expanded disclosures.

In December 2016, the NAIC adopted SSAP No. 2 – Revised, *Cash, Cash Equivalents, Drafts and Short-Term Investments* ("SSAP 2R"), to reclassify money market mutual funds from short-term investments to cash equivalents and require such funds to be reported at fair value, with changes in carrying values reported in unrealized gains (losses). The revised standard was effective December 31, 2017. FGIC adopted SSAP 2R, which did not have a material effect on the Company's statutory-basis financial statements.

**Reclassifications**

Certain 2016 amounts in the Company's statutory-basis financial statements have been reclassified to conform to the 2017 statutory-basis financial statement presentation.

## 3. Financial Guaranty Contracts

The expected future premiums shown below are based on various prepayment, collection and other assumptions and circumstances as of December 31, 2017, and actual premiums earned or collected could differ materially. In addition, the expected future premiums shown below do not give effect to policy terminations that have occurred, or may occur, after December 31, 2017, which could materially reduce the actual premiums collected.

The following is a roll-forward of the undiscounted future premiums expected to be collected on policies with installment premiums for the years ended December 31, 2017 and 2016:

| | Year Ended December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Beginning expected future premiums | **$ 98,064** | $ 121,795 |
| Premium payments received | **(7,972)** | (9,903) |
| Adjustments for changes in expected premiums, including impact of terminations and FX movement | **(34,535)** | (13,828) |
| Ending expected future premiums | **$ 55,557** | $ 98,064 |

**3. Financial Guaranty Contracts (continued)**

The following is a schedule of undiscounted future premiums expected to be collected on policies with installment premiums, shown by the periods in which those collections are expected to occur, as of December 31, 2017:

| | Undiscounted Premiums Expected to be Collected |
|---|---|
| | *(In Thousands)* |
| **Quarter ended** | |
| March 31, 2018 | $ 1,278 |
| June 30, 2018 | 1,356 |
| September 30, 2018 | 1,340 |
| December 31, 2018 | 1,303 |
| Total 2018 | 5,277 |
| **Year ended** | |
| December 31, 2019 | 4,937 |
| December 31, 2020 | 4,442 |
| December 31, 2021 | 4,006 |
| December 31, 2022 | 3,664 |
| **Five years ended** | |
| December 31, 2027 | 14,485 |
| December 31, 2032 | 9,244 |
| December 31, 2037 | 6,130 |
| December 31, 2042 | 2,719 |
| December 31, 2047 | 653 |
| Total | $ 55,557 |

## 3. Financial Guaranty Contracts (continued)

The following table presents the expected unearned premiums balance and the expected future premium earnings on non-installment policies as of and for the periods presented:

| | Unearned Premiums | Expected Future Premium Earnings |
|---|---|---|
| | *(In Thousands)* | |
| December 31, 2017 | $ 40,967 | $ – |
| **Quarter ended** | | |
| March 31, 2018 | 40,060 | 907 |
| June 30, 2018 | 39,830 | 230 |
| September 30, 2018 | 38,331 | 1,499 |
| December 31, 2018 | 37,866 | 465 |
| **Year ended** | | |
| December 31, 2019 | 34,785 | 3,081 |
| December 31, 2020 | 31,753 | 3,032 |
| December 31, 2021 | 27,011 | 4,742 |
| December 31, 2022 | 23,469 | 3,542 |
| **Five years ended** | | |
| December 31, 2027 | 16,374 | 7,095 |
| December 31, 2032 | 9,478 | 6,896 |
| December 31, 2037 | 5,595 | 3,883 |
| December 31, 2042 | 1,874 | 3,721 |
| December 31, 2047 | 19 | 1,855 |
| December 31, 2052 | | 19 |
| Total | | $ 40,967 |

The remaining amount of unearned premiums that would have been recorded if all expected future premiums on policies with installment premiums had been received at inception amounted to $39.3 million as of December 31, 2017.

## 4. Fair Value Measurements

SSAP 100 specifies a fair value hierarchy based on whether the inputs to valuation techniques used to measure fair value are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's assumptions about market participants' assumptions based on the best information available in the circumstances. The fair value hierarchy prioritizes model inputs into three broad levels: quoted prices for identical instruments in active markets are Level 1 inputs; quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets are Level 2 inputs; and model-driven valuations in which one or more significant inputs or significant value drivers are unobservable are Level 3 inputs.

Transfers among Levels 1, 2 and 3 are recognized at the end of the period when the transfer occurs. The Company reviews the classification of financial instruments in Levels 1, 2 and 3 quarterly to determine whether a transfer is necessary. There have been no transfers into or out of Levels 1, 2 or 3 during the period.

The fair values of the Company's admitted investments in bonds, surplus notes, common stocks, other invested assets, short-term investments and cash equivalents by level, and their related admitted values, are as follows:

| | Level 1 | Level 2 | Level 3 | Admitted Value |
|---|---|---|---|---|
| | *(In Thousands)* | | | |
| **December 31, 2017** | | | | |
| Bonds: | | | | |
| Obligations of states and political subdivisions | **$ –** | **$ 458,804** | **$ –** | **$ 419,001** |
| Loan-backed and structured securities | **–** | **316,588** | **–** | **318,631** |
| U.S. Treasury securities and obligations of U.S. Government corporations and agencies | **–** | **293,071** | **–** | **285,303** |
| Corporate | **–** | **1,032,053** | **–** | **976,392** |
| Total bonds | **–** | **2,100,516** | **–** | **1,999,327** |
| Surplus notes | **–** | **9,752** | **–** | **8,872** |
| Common stocks | **149,807** | **–** | **–** | **149,807** |
| Other invested assets | **–** | **–** | **40,840** | **15,488** |
| Cash equivalents | **–** | **90,438** | **–** | **90,438** |
| Total | **$ 149,807** | **$ 2,200,706** | **$ 40,840** | **$ 2,263,932** |

**4. Fair Value Measurements (continued)**

| | Level 1 | Level 2 | Level 3 | Admitted Value |
|---|---|---|---|---|
| | *(In Thousands)* | | | |
| **December 31, 2016** | | | | |
| Bonds: | | | | |
| Obligations of states and political subdivisions | $ – | $ 638,307 | $ – | $ 606,449 |
| Loan-backed and structured securities | – | 264,842 | – | 266,966 |
| U.S. Treasury securities and obligations of U.S. Government corporations and agencies | – | 229,384 | – | 235,854 |
| Corporate | – | 1,047,009 | – | 1,019,444 |
| Total bonds | – | 2,179,542 | – | 2,128,713 |
| Common stocks | 131,109 | – | – | 131,109 |
| Other invested assets | – | – | 72,743 | 20,703 |
| Short-term investments | – | 79,780 | – | 79,780 |
| Total | $ 131,109 | $ 2,259,322 | $ 72,743 | $ 2,360,305 |

(a) Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating fair values of financial instruments. Fair values estimated based upon internal valuation models are not necessarily indicative of the amount the Company could realize in a current market exchange.

*Bonds:* Fair values for bonds are based on quoted market prices, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities. Because many bonds do not trade on a daily basis, information and other data, including benchmark curves, benchmarking of like securities and matrix pricing, are utilized to value the securities. Inputs to the valuation process include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and other reference data.

*Surplus Notes:* Fair values for surplus notes are based on quoted market prices, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

**4. Fair Value Measurements (continued)**

*Common Stocks:* Fair values for common stocks are based on quoted market prices.

*Short-Term Investments*: Short-term investments are carried at amortized cost, which approximates fair value.

*Cash Equivalents*: Cash equivalents other than money market mutual funds are carried at cost, which approximates fair value. Fair values for money market mutual funds are based on quoted market prices.

*Other Invested Assets*: Other invested assets include the Non-Insurance Portion of FGIC-insured securities purchased by FGIC for loss mitigation purposes and securities or other non-cash assets that FGIC has purchased, received or recovered as a result of loss mitigation efforts. Other invested assets that are classified as NAIC designations 3 through 6 by the SVO are recorded at the lower of amortized cost or fair value as determined by the SVO, which are reduced by the Insurance Portion of each FGIC-insured security purchased by FGIC for loss mitigation efforts. The SVO fair values may be based on third-party proprietary pricing models. These models may consider inputs such as expected cash flows, estimated prepayment speeds and estimated default rates for each security or for similar securities. FGIC determines the Insurance Portion of each FGIC-insured security using internally developed formulas. These assets are considered Level 3.

(b) Financial Instruments for which Measurement of Fair Value is Not Practicable

*Financial Guaranty Insurance Contracts*: The carrying value of financial guaranty insurance contracts includes loss reserves, unearned premiums, premiums receivable and ceded balances payable. Loss reserves have been determined in accordance with the statutory accounting practices prescribed by NYSDFS Guidelines and comprise the total amount of (i) the Claims Reserve, (ii) the DPO for all policies and (iii) the DPO Accretion for all policies, minus the Policy Revision Adjustment.

The fair value of the Company's financial guaranty insurance contracts accounted for as insurance was not practicable to determine. The Company has not developed or obtained valuation models, and the cost of developing valuation models necessary to make the estimate or of obtaining an independent valuation appears excessive considering that the Company no longer writes insurance contracts but rather is responsible for administering its outstanding

## 4. Fair Value Measurements (continued)

guaranties in accordance with the terms and conditions of such guaranties (as modified by the Rehabilitation Plan) and applicable law. If the calculation were performed, it would be intended to reflect management's estimate of what a financial guaranty insurance company with similar creditworthiness would demand to acquire the Company's in-force book of financial guaranty insurance business. In making this estimate, management would seek to develop pricing assumptions based on similar portfolio transfers that have occurred in the financial guaranty market with adjustments for the Company's particular circumstances, including loss reserves, the present value of premiums expected to be collected on installment contracts over the contract period, as well as an estimate of the return on capital the acquiring company would demand. Any fair value measurement would be considered Level 3.

## 5. Investments

The amortized cost and fair value of the Company's admitted investments in bonds, surplus notes, common stocks, other invested assets, short-term investments and cash equivalents are as follows:

| | Amortized Cost | Gross Unrealized Holding Gains | Gross Unrealized Holding Losses | Fair Value |
|---|---|---|---|---|
| | *(In Thousands)* | | | |
| **December 31, 2017** | | | | |
| Bonds: | | | | |
| Obligations of states and political subdivisions | **$ 419,001** | **$ 40,851** | **$ (1,048)** | **$ 458,804** |
| Loan-backed and structured securities | **318,631** | **2,561** | **(4,604)** | **316,588** |
| U.S. Treasury securities and obligations of U.S. Government corporations and agencies | **285,303** | **12,202** | **(4,434)** | **293,071** |
| Corporate | **976,392** | **56,713** | **(1,052)** | **1,032,053** |
| Total bonds | **1,999,327** | **112,327** | **(11,138)** | **2,100,516** |
| Surplus notes | **8,872** | **880** | **–** | **9,752** |
| Common stocks | **129,869** | **19,940** | **(2)** | **149,807** |
| Other invested assets | **15,488** | **25,352** | **–** | **40,840** |
| Cash equivalents | **90,438** | **–** | **–** | **90,438** |
| Total | **$ 2,243,994** | **$ 158,499** | **$ (11,140)** | **$ 2,391,353** |

**5. Investments (continued)**

| | Amortized Cost | Gross Unrealized Holding Gains | Gross Unrealized Holding Losses | Fair Value |
|---|---|---|---|---|
| | *(In Thousands)* | | | |
| **December 31, 2016** | | | | |
| Bonds: | | | | |
| Obligations of states and political subdivisions | $ 606,449 | $ 34,561 | $ (2,703) | $ 638,307 |
| Loan-backed and structured securities | 266,966 | 3,252 | (5,376) | 264,842 |
| U.S. Treasury securities and obligations of U.S. Government corporations and agencies | 235,854 | 6,658 | (13,128) | 229,384 |
| Corporate | 1,019,444 | 33,162 | (5,597) | 1,047,009 |
| Total bonds | 2,128,713 | 77,633 | (26,804) | 2,179,542 |
| Common stocks | 118,454 | 12,663 | (8) | 131,109 |
| Other invested assets | 20,703 | 52,040 | – | 72,743 |
| Short-term investments | 79,780 | – | – | 79,780 |
| Total | $ 2,347,650 | $ 142,336 | $ (26,812) | $ 2,463,174 |

The Company has recorded OTTI of $0.8 million and $1.0 million on certain bonds for the years ended December 31, 2017 and 2016, respectively. The Company has recorded OTTI of $0.0 million and $3.0 million on common stocks for the years ended December 31, 2017 and 2016, respectively. OTTI is included in "Net realized capital gains or losses net of tax" in the statutory-basis statements of operations and represents the difference between the cost bases of these securities and their fair values (or, in the case of loan-backed and structured securities, the present value of expected cash flows) at the reporting date. The Company has recorded OTTI of $11.4 million and $0.6 million on other invested assets for the years ended December 31, 2017 and 2016, respectively. OTTI on other invested assets is included in "Other income" in the statutory-basis statements of operations and represents the difference between the cost bases of these securities and their fair values at the reporting date.

**5. Investments (continued)**

In accordance with SSAP 43R, the Company is required to categorize its OTTI on loan-backed and structured securities based upon the reason for which the Company recognized an OTTI. The following summarizes those securities held at December 31, 2017 and 2016 for which the OTTI was recorded during the years ended December 31, 2017 and 2016:

| | **Year Ended December 31** | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Intent to sell | **$ 95** | $ 61 |
| Inability to retain the investment in the security for a period of time sufficient to recover the amortized cost basis | **–** | – |
| Present value of the cash flows expected to be collected is less than the amortized cost basis of the security | **–** | – |
| Total OTTI on loan-backed and structured securities | **$ 95** | $ 61 |

The amortized cost and fair value of investments in bonds (including loan-backed and structured securities) at December 31, 2017, by contractual maturity date, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

| | **Amortized Cost** | **Fair Value** |
|---|---|---|
| | *(In Thousands)* | |
| Due in one year | $ 2,005 | $ 2,025 |
| Due after one through five years | 186,850 | 192,064 |
| Due after five years through ten years | 392,977 | 406,991 |
| Due after ten years | 1,098,864 | 1,182,848 |
| Loan-backed and structured securities | 318,631 | 316,588 |
| Total | $ 1,999,327 | $ 2,100,516 |

## 5. Investments (continued)

The amortized cost, fair value and unrealized holding losses for bonds and common stocks for which fair value declined and remained below cost at December 31, 2017 and 2016 were as follows:

| | Less Than 12 Months | | | Greater Than 12 Months | | |
|---|---|---|---|---|---|---|
| | Amortized Cost | Fair Value | Unrealized Holding Loss | Amortized Cost | Fair Value | Unrealized Holding Loss |

| Common stocks | $ 813 | $ 805 | $ (8) | $ – | $ – | $ – |

**5. Investments (continued)**

Based on the results of the impairment review process, the Company considered these declines in fair value to be temporary based on facts and circumstances at December 31, 2017 and 2016, respectively.

As of December 31, 2017, the Company did not have more than 5% of its investment portfolio concentrated in a single issuer, industry, or state other than obligations of the U.S. government or U.S. government agencies and certain mutual funds.

Net investment income was derived from the following sources:

| | Year Ended December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Income from bonds | **$ 85,312** | $ 88,498 |
| Income from common stocks | **3,424** | 2,369 |
| Income from surplus notes | **308** | – |
| Income from cash, cash equivalents and short-term investments | **964** | 419 |
| Total investment income | **90,008** | 91,286 |
| Investment expenses | **(2,128)** | (2,309) |
| Net investment income | **$ 87,880** | $ 88,977 |

For the year ended December 31, 2017, prepayment penalties and acceleration fees reported as investment income were recorded for 2 CUSIPs. The aggregate amount of investment income related to such penalties and fees was $0.1 million.

For the years ended December 31, 2017 and 2016, proceeds from dispositions of investments in bonds carried at amortized cost were $580.4 million and $798.4 million, respectively. For the years ended December 31, 2017 and 2016, gross realized gains of $22.3 million and $33.6 million, respectively, were realized on such dispositions. For the years ended December 31, 2017 and 2016, gross realized losses of $0.6 million and $3.0 million, respectively, were realized on such dispositions. For the years ended December 31, 2017 and 2016, proceeds from dispositions of investments in common stock were $111.7 million and $37.3 million, respectively. Gross realized

## 5. Investments (continued)

gains on such dispositions were $22.2 million and $3.8 million for the years ended December 31, 2017 and 2016, respectively. Gross realized losses on such dispositions were $0.5 million and $0.7 million, respectively, for the years ended December 31, 2017 and 2016.

Investments in cash, cash equivalents and bonds carried at amortized cost of $4.2 million and $4.7 million as of December 31, 2017 and 2016, respectively, were on deposit with various regulatory authorities.

The carrying values of the Company's investment in the common stock of SCA entities were $33.2 million as of both December 31, 2017 and 2016. There were no changes in the carrying values of the Company's investments in SCA entities for the years ended December 31, 2017 and December 31, 2016.

Other income for the year ended December 31, 2016 includes $42.5 million of realized gains from the sale by FGIC of all remaining units in the ResCap Liquidating Trust held by FGIC.

## 6. Income Taxes

FGIC Corp. files a consolidated U.S. federal income tax return which includes FGIC. The method of allocation between FGIC Corp. and FGIC is determined under an amended and restated income tax allocation agreement approved by the NYSDFS, and is based upon separate return calculations.

On December 22, 2017, President Trump signed the Tax Cuts and Jobs Act (the "Act"). Among other changes effective January 1, 2018 for the 2018 tax year, the Act lowers the corporate federal income tax rate from 35% to 21%, eliminates the corporate alternative minimum tax ("AMT") and requires the deemed repatriation of earnings and profits ("E&P") of foreign subsidiaries into income. As a result of the income tax rate decrease, the value of the Company's deferred tax assets and offsetting valuation allowance as of December 31, 2017 were reduced, the net impact of which was not material. The Company has prepared its tax provision and analysis based upon its interpretation of the Act. However, there exists a degree of uncertainty as to how certain provisions of the Act will be interpreted and implemented, which could impact the Company's tax provision and analysis.

**6. Income Taxes (continued)**

The following is a reconciliation of current federal income taxes computed on income before provision for federal and foreign income taxes at the statutory rate and the provision for current federal income taxes.

| | Year Ended December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Income tax expense at the statutory rate, computed on income before provision for federal and foreign income taxes | **$ 3,067** | $ 1,458 |
| Tax effect of: | | |
| Tax-exempt interest | **(2,217)** | (3,404) |
| Tax rate change | **310,509** | – |
| Change in indefinite reversal assertion – FGIC UK | **(32,715)** | – |
| Provision to return adjustments | **(265)** | 345 |
| NOL carryforward adjustment | **(13)** | 12 |
| Change in valuation allowance | **(302,242)** | 250 |
| Change in unrealized gain on foreign currency | **1** | (1,184) |
| Other, net | **(641)** | 330 |
| Benefit for federal and foreign income taxes | **$ (24,516)** | $ (2,193) |
| | | |
| Federal and foreign income taxes incurred | **$ –** | $ 1,417 |
| Change in net deferred income taxes | **(24,516)** | (3,610) |
| Total statutory income taxes | **$ (24,516)** | $ (2,193) |

The composition of total tax expense for the years ended December 31, 2017 and 2016 is as follows:

| | Year Ended December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Current: | | |
| Federal | **$ –** | $ 1,270 |
| Foreign | **–** | 147 |
| Federal and foreign income tax expense | **$ –** | $ 1,417 |

**6. Income Taxes (continued)**

The change in net deferred income taxes is composed of the following:

| | December 31 | | |
|---|---|---|---|
| | **2017** | **2016** | **Change** |
| | | *(In Thousands)* | |
| Current: | | | |
| Total adjusted gross deferred assets | **$ 292,461** | $ 324,817 | $ (32,356) |
| Total adjusted gross deferred liabilities | **280,958** | (324,817) | 43,859 |
| Federal and foreign income tax expense | **$ 11,503** | $ – | 11,503 |
| Less: tax effect of net unrealized gains | | | (13,013) |
| Change in net deferred tax | | | $ 24,516 |

As of December 31, 2017, the Company had a domestic net operating loss ("NOL") carryforward of $3,427.0 million for federal income tax purposes, which will be available (subject to certain limitations) to offset future taxable income. If not used, the NOL carryforward will start expiring in 2029 through 2037 depending on the originating year. As of December 31, 2017, the Company had an AMT credit carryforward of $11.5 million for federal income tax purposes. In accordance with changes made in the Act, in the absence of offsetting taxable income, the Company may claim a refund of 50% of the remaining AMT credit carryforwards in tax years through 2020 and 100% in 2021. As of December 31, 2017, the Company had a foreign tax credit carryforward of $0.9 million, which will be available to offset future regular tax. If not used, the foreign tax credit carryforward will start expiring in 2034 through 2036 depending on the originating year.

The amount of federal income taxes incurred and available for recoupment in the event of future losses is $0.

In accordance with SSAP 101, *Income Taxes, A Replacement of SSAP No. 10R and SSAP No. 10* ("SSAP 101"), the Company evaluates its deferred income tax asset to determine if valuation allowances are required. SSAP 101 requires that companies assess whether valuation allowances should be established based on the consideration of all available evidence using a "more likely than not" standard. In making such judgments, significant weight is given to evidence that can be objectively verified. Management believes it is more likely than not that the amortization of the net unearned premium reserve, collection of future installment premiums on contracts already written, and income from the investment portfolio will not generate sufficient taxable income to

**6. Income Taxes (continued)**

realize the entire deferred tax asset that currently exists. Accordingly, a valuation allowance of $482.4 million was established against the Company's domestic net deferred tax asset as of December 31, 2017. This results in a net deferred tax asset of $11.5 million, which relates to the Company's AMT credit carryforward discussed above. Such net deferred tax asset is not admitted under SAP. The Company will continue to analyze the need for a valuation allowance on a quarterly basis. The Company's tax returns are subject to routine audits by the Internal Revenue Service and other taxing authorities. On June 6, 2016, the Internal Revenue Service notified the Company that it had concluded its audit of the 2012 and 2013 tax years with no changes to taxable income.

The following table presents the total of deferred tax assets and liabilities by tax character:

| | **December 31** | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Deferred tax assets: | | |
| Ordinary income | **$ 765,938** | $ 1,091,969 |
| Capital losses | **8,809** | 17,377 |
| Gross deferred tax asset | **774,747** | 1,109,346 |
| Valuation allowance | **(482,286)** | (784,529) |
| Adjusted deferred tax asset | **292,461** | 324,817 |
| Non-admitted adjusted deferred tax asset | **(11,503)** | – |
| Total admitted gross deferred tax asset | **280,958** | 324,817 |
| Deferred tax liabilities: | | |
| Ordinary income | **(276,842)** | (320,582) |
| Capital gains | **(4,116)** | (4,235) |
| Total gross deferred tax liability | **(280,958)** | (324,817) |
| Net admitted deferred tax asset | **$ –** | $ – |

**6. Income Taxes (continued)**

The tax effects of temporary differences that give rise to significant portions of the net deferred tax asset at December 31, 2017 and 2016 are presented below by tax component:

| | December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Deferred tax assets: | | |
| Premiums revenue recognition | **$ 965** | $ 1,873 |
| Net operating loss carryforward | **719,666** | 1,054,321 |
| Impairment losses on investments | **5,419** | 15,549 |
| AMT credit | **11,504** | 11,504 |
| Losses-salvage and subrogation recoverable | **5,468** | 15,924 |
| Unrealized loss from FGIC UK | **19,629** | – |
| Deemed repatriation of FGIC UK E&P | **1,677** | – |
| Other | **10,419** | 10,175 |
| Gross deferred tax asset | **774,747** | 1,109,346 |
| | | |
| Valuation allowance | **(482,286)** | (784,529) |
| Adjusted deferred tax asset | **292,461** | 324,817 |
| Non-admitted adjusted deferred tax asset | **(11,503)** | – |
| Total admitted gross deferred tax asset | **280,958** | 324,817 |
| | | |
| Deferred tax liabilities: | | |
| Tax basis losses incurred adjustment | **(275,870)** | (317,744) |
| Discount on bonds and other | **(5,088)** | (7,073) |
| Total gross deferred tax liability | **(280,958)** | (324,817) |
| Net admitted deferred tax asset | **$ –** | $ – |

## 7. Reinsurance

Pursuant to reinsurance agreements with other insurance companies (reinsurers), the Company has ceded, and the reinsurers have assumed, specified portions of certain of the Company's insured risks, in exchange for the Company paying to the reinsurers the related premiums (net of a ceding commission charged by the Company). The Company remains primarily liable to pay all claims under the related policies in accordance with the terms and conditions of such policies (as modified by the Rehabilitation Plan), and neither reinsurance nor the failure of a reinsurer to fulfill all its reinsurance obligations relieves the Company of its primary obligation to the policyholders. The reinsurer is responsible for its proportionate share of the entire amount of the policy claims in respect of the policies reinsured by the reinsurer, and that amount is not reduced or otherwise impacted by the payment the Company makes on such policy claims in accordance with the Rehabilitation Plan.

The Company regularly monitors the financial condition of its reinsurers. The Company evaluated the financial condition of its reinsurers and recorded a provision for reinsurance of $0.0 million at December 31, 2017 and 2016, respectively.

Under most of the Company's reinsurance agreements, the Company has the right to reassume all the exposure ceded to a reinsurer (and receive all the remaining net unearned premiums ceded and any ceded loss reserves at that time) in the event of a specified ratings downgrade of the reinsurer or the occurrence of certain other events. In certain of these cases, the Company also has the right to impose additional ceding commissions.

Under certain reinsurance agreements, the Company holds collateral in the form of letters of credit or trust accounts, which can be drawn on in the event of default by the related reinsurer. Such collateral totaled $36.6 million at December 31, 2017.

**7. Reinsurance (continued)**

The effects of reinsurance on premiums written and earned are as follows:

| | **Year Ended December 31** | | | |
|---|---|---|---|---|
| | **2017** | | **2016** | |
| | **Written** | **Earned** | **Written** | **Earned** |
| | *(In Thousands)* | | | |
| Direct premiums | **$ 7,107** | **$ 14,619** | $ 9,363 | $ 20,511 |
| Ceded premiums: | | | | |
| Affiliates | **–** | **–** | – | – |
| Non-affiliates | **(370)** | **(972)** | (297) | (845) |
| Net premiums | **$ 6,737** | **$ 13,647** | $ 9,066 | $ 19,666 |

From time to time, the Company may seek to commute reinsurance under certain reinsurance agreements or in respect of certain policies. In connection with these commutations, the Company will reassume the related insured risks.

The amount deducted from unearned premiums for reinsurance ceded to other companies was $1.0 million and $1.6 million at December 31, 2017 and 2016, respectively. The amount of commissions that would be required to be returned by the Company if all reinsurance was canceled was $0.2 million and $0.5 million at December 31, 2017 and 2016, respectively. The amount deducted from loss reserves for reinsurance ceded was $24.9 million and $10.9 million at December 31, 2017 and 2016, respectively. The amount of loss adjustment expenses for reinsurance ceded was $0.3 million and $0.2 million for December 31, 2017 and 2016, respectively.

Amounts payable or recoverable for reinsurance on paid or unpaid losses are not subject to periodic or maximum limits.

The Company has no assumed exposure from other insurance companies under reinsurance agreements.

## 8. Loss Reserves

Loss reserves comprise the total amount of (i) the Claims Reserve, (ii) the DPO for all policies and (iii) the DPO Accretion for all policies, minus the Policy Revision Adjustment. The Policy Revision Adjustment shown in the table below is prescribed by NYSDFS Guidelines and reflects the reduction in the loss reserve components necessary to reflect a Minimum Surplus Amount of $66.4 million.

The loss reserve components as of December 31, 2017 and 2016 are summarized as follows:

| | December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Claims Reserve | **$ 1,518,188** | $ 1,311,571 |
| DPO | **1,484,761** | 1,678,310 |
| DPO Accretion | **171,972** | 128,836 |
| Total | **3,174,921** | 3,118,717 |
| Policy Revision Adjustment | **(1,331,071)** | (1,169,008) |
| Loss reserves | **$ 1,843,850** | $ 1,949,709 |

### Claims Reserve

The Claims Reserve is calculated on a policy-by-policy basis for insured obligations, net of reinsurance, as of the reporting date (using the prescribed statutory discount rate which is based on the average rate of return on the Company's admitted assets, which was 4.52% and 4.27% at December 31, 2017 and 2016, respectively). The amount of the discount as of December 31, 2017 and 2016 was $969.0 million and $896.8 million, respectively. Included in loss reserve expense is $72.2 million and $(235.8 million) of interest accretion for the years ended December 31, 2017 and 2016, respectively.

**8. Loss Reserves (continued)**

Activity related to the Claims Reserve for the years ended December 31, 2017 and 2016 is summarized as follows:

| | December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Claims Reserve, beginning of year | **$ 1,311,571** | $ 1,362,406 |
| Incurred related to: | | |
| Current year | **–** | – |
| Prior years | **203,587** | 9,160 |
| Total incurred | **203,587** | 9,160 |
| Paid related to: | | |
| Current year | **–** | – |
| Prior years | **(6,434)** | (12,383) |
| Total paid | **(6,434)** | (12,383) |
| Transferred to DPO: | | |
| Current year | **–** | – |
| Prior years | **9,464** | (47,612) |
| Total transferred to DPO | **9,464** | (47,612) |
| Claims Reserve, end of year | **$ 1,518,188** | $ 1,311,571 |

The Claims Reserve increased $206.6 million to $1,518.2 million at December 31, 2017 from $1,311.6 million at December 31, 2016, primarily driven by increases in estimated losses relating to Puerto Rico-related exposures insured by FGIC, partially offset by decreases in estimated losses relating to certain RMBS and other exposures insured by FGIC arising principally from loss mitigation efforts, claims paid by FGIC, and improved transaction performance, and the impact of discounting projected future claims at a higher statutory discount rate.

**8. Loss Reserves (continued)**

The following table shows the gross and net par in force for FGIC's Puerto Rico-related insured exposures as of December 31, 2017:

| | Gross Par In Force* | Net Par In Force* |
|---|---|---|
| | *(In Thousands)* | |
| Puerto Rico General Obligation | $ 223,600 | $ 221,105 |
| Puerto Rico Convention Center District Authority | 97,075 | 97,075 |
| Puerto Rico Highways and Transportation Authority (Trans Revs – Senior) | 381,855 | 354,184 |
| Puerto Rico Highways and Transportation Authority (Trans Revs – Subordinate) | 49,370 | 49,370 |
| Puerto Rico Infrastructure Financing Authority** | 340,080 | 340,080 |
| Total | $ 1,091,980 | $ 1,061,814 |

* *With respect to any FGIC-insured exposure, (i) gross par in force is based on the outstanding principal amount of such exposure, as of the date of determination, but, if such exposure has been the subject of any permitted policy claim paid by FGIC at the CPP in accordance with the Rehabilitation Plan, the gross par in force is reduced by the total amount of all such permitted policy claims relating to principal (without duplication of any other actual reductions), not merely by the CPP portion thereof paid in cash, since the Rehabilitation Plan prohibits future policy claims for that principal amount or interest thereon, and (ii) net par in force means the gross par in force for such exposure net of any related reinsurance.*

** *Includes capital appreciation bonds (CABs) using the principal amount at the time they were insured. As of December 31, 2017, the accretion on these CABs totaled $198.2 million.*

## 8. Loss Reserves (continued)

The following table shows the scheduled net debt service due on FGIC's Puerto Rico-related insured exposures as of December 31, 2017, for each of the years presented:

| | Puerto Rico General Obligation | Puerto Rico Convention Center District Authority | Puerto Rico Highways and Transportation Authority (Trans Revs – Senior) | Puerto Rico Highways and Transportation Authority (Trans Revs - Subordinate) | Puerto Rico Infrastructure Financing Authority | Total |
|---|---|---|---|---|---|---|
| 2018 | $ 28,430 | $ 4,755 | $ 18,943 | $ 17,872 | $ 17,048 | $ 87,048 |
| 2019 | 26,189 | 4,755 | 32,301 | 8,910 | 54,714 | 126,869 |
| 2020 | 26,272 | 4,755 | 24,820 | 12,571 | 54,716 | 123,134 |
| 2021 | 95,300 | 19,075 | 38,486 | 17,258 | 54,712 | 224,831 |
| 2022 | 60,170 | 19,073 | 47,226 | – | 54,713 | 181,182 |
| Thereafter | 39,618 | 76,297 | 468,963 | – | 498,846 | 1,083,724 |
| Total | $ 275,979 | $ 128,710 | $ 630,739 | $ 56,611 | $ 734,749 | $ 1,826,788 |

FGIC's Puerto Rico-related insured exposures are subject to significant stress and credit deterioration arising from Puerto Rico's fiscal, financial, liquidity and other challenges. There is substantial uncertainty as to Puerto Rico's ability and willingness to pay its various debt service obligations in a timely manner, as discussed below.

Puerto Rico has defaulted on all semi-annual debt service payments on FGIC-insured Puerto Rico Infrastructure Financing Authority ("PRIFA") bonds due from and after January 1, 2016, FGIC-insured General Obligation ("GO") and GO Guaranteed bonds due from and after July 1, 2016, and FGIC-insured Puerto Rico Highways and Transportation Authority ("PRHTA") and Puerto Rico Convention Center District Authority ("PRCCDA") bonds due from and after July 1, 2017. Due to Puerto Rico's defaults, FGIC has made payments in accordance with the terms of its related policies (as modified by the Rehabilitation Plan) in respect of aggregate policy claims of approximately $140.1 million through December 31, 2017, and additional aggregate policy claims of approximately $25.6 million received in January 2018. To the extent Puerto Rico continues to fail to pay scheduled debt service on FGIC-insured exposures as and when due, FGIC would be obligated to pay the related claims under its policies (as modified by the Rehabilitation Plan), and such claims could be material. While FGIC will seek to recover any claim payments it makes, there can be no assurance that FGIC will be able to recover any such payments.

**8. Loss Reserves (continued)**

On June 30, 2016, the President of the United States signed into law the Puerto Rico Oversight Management and Economic Stability Act ("PROMESA"). PROMESA, among other things, establishes the Financial Oversight and Management Board (the "Oversight Board") with broad responsibilities and authority for (i) overseeing the development of budgets and fiscal plans for the Commonwealth and its instrumentalities and (ii) initiating judicial processes under Title III of PROMESA to restructure the debts of the Commonwealth and its instrumentalities, by accessing multiple sections of the U.S. Bankruptcy Code (including cramdown provisions) that were not previously available to Puerto Rico. PROMESA also sets forth collective action provisions intended to facilitate consensual debt restructurings pursuant to Title VI of PROMESA. PROMESA provided for an automatic stay of debt-related litigation and other enforcement actions upon its enactment (the "PROMESA Stay"), which expired on May 1, 2017.

On March 13, 2017, the Oversight Board certified a fiscal plan for the Commonwealth, which allocates funds available for the payment of Puerto Rico's debt service, including certain public corporation debt, in an aggregate amount that is materially less than the aggregate amount required to pay such debt service. On April 28, 2017, the Oversight Board certified a fiscal plan for PRHTA, which allocates no funds as available for the payment of PRHTA's debt service on bonds. These fiscal plans will likely be modified as discussed below.

On May 3, 2017, the Oversight Board filed a petition in the U.S. District Court for the District of Puerto Rico and thereby commenced a debt adjustment proceeding for the Commonwealth of Puerto Rico under Title III of PROMESA. On May 21, 2017, the Oversight Board filed a petition in the U.S. District Court for the District of Puerto Rico and thereby commenced a debt adjustment proceeding for PRHTA under Title III of PROMESA. The terms and timing for any final outcome of these Title III proceedings are uncertain, but could materially impact FGIC. On June 3, 2017, FGIC and other parties commenced an adversary proceeding in the PRHTA Title III case seeking to enforce the special revenue protections of the U.S. Bankruptcy Code, which Congress incorporated into Title III proceedings under PROMESA, with respect to special revenues pledged to secure the repayment of PRHTA bonds (See Note 14, Legal Proceedings).

On June 14, 2017, the federal judge hearing the Title III cases entered an order designating a mediation team comprising five sitting federal judges to facilitate confidential settlement negotiations of any and all issues and proceedings arising in the Title III cases. FGIC has participated in these negotiations.

**8. Loss Reserves (continued)**

During September 2017, the Commonwealth was battered by Hurricane Irma and Hurricane Maria (the “Hurricanes”). According to various media and government reports, the Hurricanes caused widespread devastation in the Commonwealth, and the rebuilding and economic recovery of Puerto Rico could take years and will be directly impacted by the timing and amount of aid and other assistance provided by the federal government. The aftereffects of the Hurricanes have delayed the Title III proceedings and will likely lead to revisions of the terms of the certified fiscal plans. On December 20, 2017, the Oversight Board provided formal notice to the Governor of Puerto Rico for the submission of revised fiscal plans for the Commonwealth and certain public corporations, including PRHTA. On February 12, 2018, the Governor submitted an updated draft fiscal plan for the Commonwealth to the Oversight Board, after the Oversight Board issued a violation notice with respect to the prior draft submitted on January 24, 2018. This revised draft fiscal plan covers the period through fiscal year 2023 and projects large debt service shortfalls over that period. It is unclear whether, or to what extent, the Oversight Board will determine that this revised draft fiscal plan addresses the issues raised in its violation notice. The nature and extent of the changes that the Oversight Board may require to certify the revised fiscal plan are uncertain, but could be material to FGIC. The Oversight Board has set March 9, 2018, as the deadline for the Governor to submit a revised fiscal plan for PRHTA.

On November 30 and December 7, 2015, the Governor of Puerto Rico issued executive orders (the “Clawback Orders”) authorizing the Commonwealth’s Treasury Department to retain or redirect certain revenues that the Commonwealth had previously assigned to particular public corporations (the “Clawback”), including PRIFA, PRHTA and PRCCDA, which revenues had been pledged to secure bonds issued by these public corporations, including bonds insured by FGIC. On January 19, 2016, FGIC filed a complaint against the Governor of Puerto Rico and other Commonwealth officials asserting, among other things, claims challenging the constitutionality of the Clawback and the Clawback Orders under the U.S. Constitution (See Note 14, Legal Proceedings).

On April 6, 2016, the Governor of Puerto Rico signed into law the Puerto Rico Emergency Moratorium and Financial Rehabilitation Act (the “Moratorium Act”). Pursuant to the authority purportedly granted by the Moratorium Act, the Governor issued various executive orders affecting Puerto Rico-related obligations insured by FGIC or the issuers thereof or the pledged security therefor (the “Moratorium Orders”), including executive orders suspending payments on the Commonwealth’s GO and GO Guaranteed bonds and diverting revenues pledged to secure the repayment of PRIFA, PRHTA and PRCCDA bonds. On March 16, 2017, FGIC filed a motion to intervene as a plaintiff in litigation challenging portions of the Moratorium Act and various Moratorium Orders (See Note 14, Legal Proceedings).

**8. Loss Reserves (continued)**

The ultimate impact of the Hurricanes (and the amount and timing of any federal aid or other assistance for the Commonwealth), PROMESA (including the Title III proceedings that have been or may be filed and legal challenges that have been or may be brought), laws enacted by the Commonwealth, executive orders issued by the Governor of Puerto Rico, and actions taken (or not taken) by the Oversight Board or the Commonwealth, on Puerto Rico and its fiscal, financial, liquidity and other challenges, including the payment or restructuring of its debt obligations (including those insured by FGIC), is uncertain, but could be material to FGIC.

As of December 31, 2017, FGIC maintained a Claims Reserve for its Puerto Rico-related insured exposures based on various factors and assumptions, including the possible timing and outcome of the Title III proceedings and related legal challenges, the publicly disclosed terms of the Commonwealth's settlement proposal prior to filing of the Title III proceedings, and other matters highlighted above. Rulings, outcomes or other developments relating to Puerto Rico, including the nature, timing and impact of recovery and relief efforts relating to the Hurricanes, may lead to changes in the Claims Reserve for FGIC's Puerto Rico-related insured exposures and the policy claims that FGIC may be required to pay under its related policies, and such changes could be material. It is impossible to predict with any certainty how or when Puerto Rico will be able to resolve its debt and other challenges, and any such resolution could have a material effect on FGIC's Claims Reserve and the related policy claims that FGIC would be required to pay.

The Company has insured LIBOR-based floating rate RMBS transactions. Accordingly, the Company is exposed to interest rate risk. For Claims Reserve purposes, each quarter the Company projects its insured exposure on these transactions using forward LIBOR curves (1-month or 6-month as applicable) as of the end of the second month of such quarter. For such RMBS transactions where FGIC projects losses, all other things being equal, increases or decreases in the interest rates comprising such curves as compared to the prior quarter would increase or decrease FGIC's Claims Reserve, and such changes could be material. The Claims Reserve should be most significantly impacted on such RMBS transactions where FGIC is not required to pay policy claims relating to principal losses until legal maturity of the transactions (2035-2037) because they will continue to have relatively high principal balances on which interest generally will accrue except as otherwise provided in the transaction documents.

The Company believes that the Claims Reserve as of December 31, 2017 is adequate to reflect the sum, net of reinsurance, of (i) the present value of net policy claims submitted to the Company in accordance with the Rehabilitation Plan that are unpaid and not objected to by FGIC as of such date and (ii) the present value of net policy claims that are expected to be received by FGIC in the

**8. Loss Reserves (continued)**

future. The total amount of policy claims FGIC expects to receive in the future is determined for each policy using internally developed cash flow projection models or other methods for estimating losses. However, the establishment of the appropriate level of the Claims Reserve to reflect the future policy claims expected by the Company is an inherently uncertain process involving numerous assumptions, estimates and subjective judgments by management about the outcome of future events, including as to the final resolution of FGIC's Puerto Rico-related insured exposures, the default probability and liquidation value of assets supporting the insured obligations, future interest rate movements, the amount and timing of collateral cash flows, the priority of application of those cash flows under the transactions documents, and the behavior of the underlying borrower.

Small changes in the assumptions, estimates or judgments used by management, which may arise from, among other things, further deterioration in FGIC-insured Puerto Rico-related exposures or the performance of FGIC-insured RMBS, interest rate movements, or changes in the ability or willingness of insured obligors (including Puerto Rico-related entities) to pay their debt service obligations, could result in significant changes in the Company's loss expectations and the related Claims Reserve. These changes will not affect the Company's loss reserve or operating results as long as a Policy Revision Adjustment is required to be made. There can be no assurance that the Company's estimate of the Claims Reserve is accurate. Accordingly, there can be no assurance that the total amount of policy claims permitted by the Company after December 31, 2017 will not exceed or be less than its Claims Reserve at December 31, 2017, and it is possible that they could significantly exceed such reserve.

The Company evaluates the portfolio of insured financial obligations on a regular basis to determine if there has been credit deterioration. The Company evaluates such factors as rating agency downgrades, significant changes in a specific industry and specific events impacting a particular credit, such as a negative credit event, performance below expectations, breaches of representations, warranties, covenants or deal triggers, management changes, regulatory changes, material litigation and other legal issues. Based on the Company's evaluation of these and other factors, the Company assigns credits to risk ratings categories, which assignment determines the level of on-going monitoring and surveillance efforts required and whether a Claims Reserve is recorded. The Company uses the following risk categories to define and monitor insured financial obligations:

**8. Loss Reserves (continued)**

**Risk Category 1 – Performing Credits**

Transactions are performing with no expectation of loss. Financial strength of the transaction would enable it to withstand volatility in performance without risk of non-payment on timely debt service. Transactions are considered to be investment grade by the Company. Although rating changes may occur, it is not expected that a downgrade would be to below investment grade.

**Risk Category 2 – Watchlist Credits Under Heightened Surveillance**

Credits in this category typically would be considered marginal investment grade or higher rated "non-investment grade." Credits in this risk category have been determined to require heightened surveillance, taking into account the totality of circumstances surrounding the particular credit, but have not deteriorated to the level that they would be considered impaired and require a Claims Reserve.

**Risk Category 3 – Watchlist Credits Experiencing Credit Impairment**

Credit deterioration has occurred and there is substantial uncertainty as to the credit's ability or willingness to pay its debt service obligations in a timely manner. Credits in this category typically would have suffered sustained negative trends or would have been the subject of a significant adverse event, but are currently not in payment default. Credits in this category have been determined to be impaired, and there is an increased probability of default, but FGIC has not determined, or been able to determine, that policy claims are probable and estimable.

**Risk Category 4 – Watchlist Credits Currently or Likely to Be in Payment Default**

Credits that have deteriorated to the point where payment default on their debt service obligations has occurred or is probable and the ultimate loss can be reasonably estimated. Claims Reserves are established on a case basis and are inclusive of any anticipated recoveries from the particular credit or the related collateral. Credits in this category would be consistent with the lowest or in-default credit ratings. Credits in risk category 4 are reviewed and updated on at least a quarterly basis for any change in status.

**8. Loss Reserves (continued)**

The following table is a breakdown, as of December 31, 2017, of the Company's portfolio of insured financial obligations assigned to risk category 4:

| | **Risk Category 4** |
|---|---|
| | *(Dollars in Thousands)* |
| Number of policies | 80 |
| Remaining weighted-average contract period (in years) | 9 |
| Insured contractual payments outstanding: | |
| Principal | $ 3,778,308 |
| Interest | 1,646,562 |
| Total | 5,424,870 |
| | |
| Gross Claims Reserve | $ 2,706,261 |
| Less: | |
| Gross projected recoveries | (157,681) |
| Discount, net | (993,370) |
| Gross Claims Reserve, net of discount and projected recoveries | $ 1,555,210 |
| | |
| Unearned premiums | $ 28,988 |
| Reinsurance recoverable reported in the balance sheet | $ 44 |

In RMBS, asset-backed securities and other securitization transactions insured by FGIC, the structure of the waterfall of cash flows in the transaction documents and applicable terms and conditions of the Rehabilitation Plan may permit FGIC to recover claims paid from subsequent cash flows. The projected recoveries in the above table reflect FGIC's current estimate of these recoveries, but there can be no assurance that such recoveries will be received by FGIC. The Company's insured financial obligations are structured to provide for rights and remedies in order to mitigate claim loss exposure. Loss mitigation activities may include making repurchase claims or pursuing other claims for breaches of representations and warranties by the originator or others, obtaining appraisals of collateral or reviews of loan files, enforcing collateral provisions and covenants of the servicer or others, more frequent meetings with the issuer or servicer, evaluating the financial position of the originator or servicer, renegotiating financial covenants, triggers, or

**8. Loss Reserves (continued)**

terms of servicing, enforcing rights to remove and replace the servicer, evaluating restructuring plans or bankruptcy proceedings, and commencing litigation or arbitration proceedings as and where appropriate.

There can be no assurance that any loss mitigation efforts will be successful, or as to the magnitude of any benefit that might be derived from any such efforts that are successful.

In accordance with the Rehabilitation Plan, each reinsurer is obligated to pay FGIC in full in cash for such reinsurer's reinsured portion of the entire amount of each permitted policy claim covered by the reinsurance, in each case without giving effect to the modification of FGIC's policy obligations and regardless of the amount paid in cash by FGIC on account of such policy claim. Any reinsurance recoverable on losses is calculated in a manner consistent with the calculation of gross Claims Reserve and reflected in the Claims Reserve as a reduction of the liability.

**DPO**

Activity in the DPO for the years ended December 31, 2017 and 2016 is summarized as follows:

| | December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Balance, beginning of year | **$ 1,678,310** | $ 1,700,456 |
| Payments of DPO | **(184,085)** | (69,758) |
| Additions: | | |
| DPO relating to Permitted Policy Claims that were initially paid (or deemed to be paid) in cash during the year | **(9,464)** | 47,612 |
| Balance, end of year | **$ 1,484,761** | $ 1,678,310 |

**8. Loss Reserves (continued)**

With respect to FGIC-insured securities purchased and owned by FGIC for which there is a DPO outstanding under the related policy, if the CPP is increased in the future, FGIC, as the holder of such insured securities, would be entitled to receive a ratable portion of the related DPO and DPO Accretion payments that would be payable by FGIC under such policy.

**DPO Accretion**

Activity in the DPO Accretion for the years ended December 31, 2017 and 2016 is summarized as follows:

| | December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Balance, beginning of year | **$ 128,836** | $ 80,446 |
| Accretion on outstanding DPO | **51,480** | 51,727 |
| Payment of DPO Accretion | **(8,344)** | (3,337) |
| Balance, end of year | **$ 171,972** | $ 128,836 |

**PRA**

Activity in the PRA for the years ended December 31, 2017 and 2016 is summarized as follows:

| | December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Balance, beginning of year | **$ (1,169,008)** | $ (1,247,386) |
| (Increase) decrease in PRA | **(162,063)** | 78,378 |
| Balance, end of year | **$ (1,331,071)** | $ (1,169,008) |

## 9. Loss Adjustment Expense Reserves

The Company estimates a loss adjustment expense reserve based on the ultimate future net cost, determined using internally developed estimates, of the efforts involved in managing and mitigating existing and future policy claims.

Activity in the loss adjustment expense reserve for the years ended December 31, 2017 and 2016 is summarized as follows:

| | December 31 | |
|---|---|---|
| | **2017** | **2016** |
| | *(In Thousands)* | |
| Net balance at beginning of year | **$ 24,081** | $ 13,643 |
| Incurred related to: | | |
| Current year | – | – |
| Prior years | **16,412** | 19,480 |
| Total incurred | **16,412** | 19,480 |
| Paid related to: | | |
| Current year | – | – |
| Prior years | **(13,665)** | (9,042) |
| Total paid | **(13,665)** | (9,042) |
| Net balance at end of year | **$ 26,828** | $ 24,081 |

## 10. Related-Party Transactions

The Company is a party to cost-sharing agreements with FGIC Corp. and FGIC UK, pursuant to which the Company may provide these affiliates with management, administrative and other services, the Company may incur and pay costs and other expenses that benefit these affiliates, and these affiliates are obligated to pay the Company for the allocated cost of such services and to reimburse the Company for their allocated share of such expenses paid by the Company. Such shared costs and expenses are allocated to affiliates and vary depending on the assumptions underlying the allocations. The Company allocated costs and expenses of $1.7 million and $1.6 million to its affiliates in 2017 and 2016, respectively.

**10. Related Party Transactions (continued)**

The Company is a party to an amended and restated income tax allocation agreement with FGIC Corp. (see Note 6, Income Taxes).

The assets provided by the City of Detroit, Michigan in connection with the settlement of certain claims related to the FGIC-insured certificates of participation (the "COPs") issued by the Detroit Retirement Systems Funding Trust 2005 and the Detroit Retirement Systems Funding Trust 2006 (together, the "COPs Trusts") pursuant to Detroit's bankruptcy plan, were transferred to Gotham Motown Recovery, LLC ("GMR"), a Delaware limited liability company formed on February 5, 2016 for the purpose of owning, managing, administering, and otherwise dealing with such assets. FGIC is the managing member of GMR and as such is entitled to receive expense reimbursement from GMR, but such membership interest does not entitle FGIC to receive any distributions made by GMR or to any direct economic ownership of GMR. The COPs Trusts are members of GMR holding in the aggregate a 100% economic interest in GMR on behalf of the holders of the COPs (including FGIC to the extent it has acquired or will acquire COPs by paying policy claims in cash or otherwise acquires COPs). All distributions made by GMR are payable to the COPs Trust Members, which in turn generally pay such distributions to the holders of the COPs. FGIC currently owns 33% of the COPs by virtue of having paid policy claims in cash, and accordingly is currently entitled to receive 33% of all payments on the COPs made by the Trusts. All such payments received by FGIC are recorded as reductions to incurred losses when received. In accordance with SAP, FGIC does not assign any value as an asset to its membership interest in GMR or its ownership of COPs. Expense reimbursements that FGIC receives from GMR in connection with acting as the managing member of GMR are recorded as reductions to other underwriting expenses.

**11. Employee Benefit Plans**

Since January 1, 2004, the Company has offered a defined contribution savings plan under Section 401(k) of the Internal Revenue Code (the "401(k) Plan"). This plan covers substantially all employees who meet minimum age and service requirements and allows participants to defer a portion of their annual compensation on a pre-tax basis (for 2017, up to $18,000, plus an additional "catch up" contribution of up to $6,000 for employees 50 and older). The Company may also make discretionary contributions to the plan on behalf of employees. The Company contributed $0.6 million and $0.6 million to the plan on behalf of employees for the years ended December 31, 2017 and 2016, respectively.

## 11. Employee Benefit Plans (continued)

Effective April 1, 2014, the Company adopted a Long-Term Incentive Plan, a non-qualified, unfunded deferred compensation plan for certain employees (the "LTIP"). All LTIP units that are issued will be valued at least annually by the Compensation Committee of the Board of Directors based on specified metrics in accordance with the LTIP. The LTIP units issued in 2014 vested 100% on December 31, 2016 and the benefits under 50% of the units were paid in the first quarter of 2017 and the benefits under the remainder will be paid in the first quarter of 2019. The LTIP units issued in 2015 vested 100% on December 31, 2017 and the benefits under all such units will be paid in the first quarter of 2018. The LTIP units issued in 2016 will vest 100% on December 31, 2019 (or earlier under certain conditions) and the benefits under all such units will be paid in the first quarter of 2020. For the years ended December 31, 2017 and 2016, the benefits accrued under the plan were $3.0 million and $4.7 million, respectively.

## 12. Dividends

Under the Rehabilitation Plan, equity interests (i.e., the interests of any holders of the issued and outstanding shares of the common or preferred stock of the Company) in existence as of the commencement date of FGIC's rehabilitation proceeding remain in existence; provided, however, that no holder of any of these shares shall be entitled to any distributions, dividends or other payments on account of its shares until all actual and expected permitted secured claims, permitted administrative expense claims, permitted policy claims, permitted non-policy claims and permitted late-filed claims are paid in full in cash or fully reserved for, as determined by FGIC with the express written consent of the NYSDFS.

During the years ended December 31, 2017 and 2016, FGIC did not declare or pay dividends.

## 13. Underwriting Exposure

### Concentrations of Credit Risk

The Company's insured portfolio as of December 31, 2017 was diversified by geographic and bond market sector, with no single obligor representing more than 6.6% of the Company's net par in force. The total of Puerto Rico-related obligors represents 15.9% of the Company's net par in force.

**13. Underwriting Exposure (continued)**

The following presents the Company's gross and net par in force by category as of December 31, 2017:

| | Gross Par In Force | Net Par In Force | % of Total Net Par In Force |
|---|---|---|---|
| | *(Dollars in Thousands)* | | |
| **U.S. public finance** | | | |
| Tax backed | $ 892,533 | $ 864,673 | 13% |
| Project finance | 669,325 | 516,555 | 8% |
| General obligation | 378,783 | 370,878 | 6% |
| Water and sewer | 192,203 | 192,174 | 3% |
| Investor-owned utilities | 65,500 | 65,500 | 1% |
| Housing | 34,772 | 34,744 | 1% |
| Higher education | 12,075 | 12,075 | –% |
| Total U.S. public finance | 2,245,191 | 2,056,599 | 32% |
| **U.S. structured finance** | | | |
| RMBS | 2,888,831 | 2,873,349 | 43% |
| Student loan | 224,942 | 224,942 | 3% |
| RV/marine | 818 | 818 | –% |
| Total U.S. structured finance | 3,114,591 | 3,099,109 | 46% |
| **International** | | | |
| Project finance | 1,133,828 | 1,133,828 | 17% |
| Investor-owned utilities | 363,185 | 363,185 | 5% |
| Toll road | 10,647 | 10,647 | –% |
| Total international | 1,507,660 | 1,507,660 | 22% |
| Total | $ 6,867,442 | $ 6,663,368 | 100% |

**13. Underwriting Exposure (continued)**

As of December 31, 2017, the Company's RMBS exposure consisted of various collateral types as set forth in the table below.

| | Number of Policies In Force | Net Par In Force | % of Total |
|---|---|---|---|
| | *(Dollars in Thousands)* | | |
| Alt-A (1st lien) | 15 | $ 483,547 | 17% |
| HELOC | 20 | 552,520 | 19% |
| Closed end seconds | 8 | 754,976 | 26% |
| Subprime (1st lien) | 33 | 1,082,219 | 38% |
| Prime (1st lien) | 1 | 87 | 0% |
| Total | 77 | $ 2,873,349 | 100% |

As of December 31, 2017, the Company's ceded reinsurance was as follows:

| Reinsurer | Reinsurer Rating (S&P) | Ceded Principal Outstanding | Ceded UPR | Reinsurance Recoverable on Paid and Unpaid Losses |
|---|---|---|---|---|
| | | *(Dollars in Thousands)* | | |
| Assured Guaranty Re Ltd. | AA | $ 195,917 | $ 947 | $ 24,514 |
| Assured Guaranty Corp. | AA | 8,059 | 40 | 419 |
| Other | | 98 | 2 | – |
| Total | | $ 204,074 | $ 989 | $ 24,933 |

**14. Legal Proceedings**

FGIC may be involved from time to time in various legal proceedings filed against it, including the case described below. In addition, FGIC has received, and may in the future receive, various subpoenas, regulatory inquiries, requests for information and document preservation letters. Defending against legal proceedings and responding to subpoenas, regulatory inquiries, requests for information and document preservation letters may involve significant expense and diversion of management's attention and other FGIC resources.

In *Modern Art Services LLC v. Financial Guaranty Insurance Company,* (N.Y. Sup.Ct., Index No. 651115/2016, filed on March 3, 2016), plaintiff sued FGIC alleging breach of contract, breach of the implied covenant of good faith and fair dealing and unjust enrichment, arising out of FGIC's purported failure to compensate plaintiff for its role in connection with the bankruptcy of the City of Detroit. On October 11, 2016, the Court granted in part and denied in part FGIC's motion to dismiss each of plaintiff's causes of action. On March 17, 2017, plaintiff filed notice of its intention to appeal such decision. On March 22, 2017, FGIC filed its answer to the complaint. On December 17, 2017, plaintiff filed its brief in support of its appeal of the trial court's decision granting certain of FGIC's motions to dismiss. On January 31, 2018, FGIC filed its brief in opposition to the appeal.

FGIC has asserted, and from time to time may assert, claims in legal or arbitration proceedings against third parties to recover losses already incurred by FGIC or to mitigate future losses that FGIC may incur, including the lawsuits described below. The amount of losses that FGIC may recover or mitigate as a result of these proceedings is uncertain, although, in the event of favorable outcomes or settlements, such amount could be material to FGIC's results of operations, financial position, profitability or cash flows.

In *Financial Guaranty Insurance Company v. The Putnam Advisory Company, LLC* (U.S. District Court for the Southern District of New York, filed October 1, 2012 and thereafter amended on November 19, 2012), FGIC sued The Putnam Advisory Company ("Putnam"), alleging fraud, negligent misrepresentation and negligence by Putnam in connection with the Pyxis ABS CDO 2006-1 transaction for which Putnam acted as collateral manager. On September 10, 2013, FGIC's complaint was dismissed, with leave to file a further amended complaint. On September 30, 2013, FGIC filed a further amended complaint. On April 28, 2014, the District Court granted Putnam's motion to dismiss all of FGIC's claims. On April 15, 2015, the United States Court of Appeals for the Second Circuit vacated the District Court's dismissal of FGIC's complaint and remanded the case for further proceedings. On May 18, 2015, Putnam filed its answer to the complaint.

**14. Legal Proceedings (continued)**

In *Financial Guaranty Insurance Company v. Morgan Stanley ABS Capital I Inc. and Morgan Stanley Mortgage Capital Holdings LLC,* (N.Y. Sup.Ct., Index No. 652853/2014, filed on September 19, 2014), FGIC sued Morgan Stanley ABS Capital I Inc. ("MSAC") and Morgan Stanley Mortgage Capital Holdings LLC ("MSMC"), alleging, *inter alia*, that MSAC and MSMC breached various warranties and affirmative covenants in connection with the securitization transaction known as Basket of Aggregated Residential NIMS 2007-1, including their obligations to repurchase breaching net interest margin securities that collateralized the insured securities, and to reimburse FGIC for payments made under the related FGIC policy. On January 19, 2017, the Court denied in its entirety MSAC and MSMC's motion to dismiss FGIC's claims. On February 24, 2017, defendants filed notice of their intention to appeal such decision. On March 1, 2017, defendants filed their answer to the complaint. On November 22, 2017, defendants filed their brief in support of their appeal of the trial court's decision declining to dismiss FGIC's request for recovery of all insurance claims payments without regard to their cause. On January 17, 2018, FGIC filed its brief in opposition to the appeal.

In *Financial Guaranty Insurance Company v. Morgan Stanley, et al.,* (N.Y. Sup.Ct., Index No. 652914/2014, filed on September 23, 2014), FGIC sued MSAC, MSMC, Morgan Stanley (MS) and Morgan Stanley & Co. LLC (collectively, "Morgan Stanley"), and Saxon Mortgage Services, Inc. ("Saxon"), alleging, *inter alia*, that (i) Morgan Stanley fraudulently induced FGIC to insure the RMBS transaction known as MSAC 2007-NC4; (ii) MSAC, MSMC and MS breached various warranties and affirmative covenants, including their obligations to repurchase breaching or fraudulent mortgage loans and to reimburse FGIC for payments made under the related FGIC policy; and (iii) Saxon and MS breached their warranties and obligations under the Pooling and Servicing Agreement for the MSAC 2007-NC4 transaction, including their obligation to provide notice of breaching mortgage loans. On January 23, 2017, the Court denied in its entirety Morgan Stanley's motion to dismiss FGIC's claims. On February 24, 2017, Morgan Stanley filed notice of its intention to appeal such decision. On March 1, 2017, Morgan Stanley filed its answer to the complaint. On November 22, 2017, Morgan Stanley filed its brief in support of its appeal of two of the trial court's decisions declining to dismiss: (i) FGIC's request for recovery of all insurance claims payments without regard to their cause and (ii) FGIC's fraud claim as duplicative of its contract claims. On January 17, 2018, FGIC filed its brief in opposition to the appeal.

**14. Legal Proceedings (continued)**

In *Assured Guaranty Corp., et al. v. Commonwealth of Puerto Rico, et al.*, (D.P.R., Case No. 17-00156-LTS, filed on June 3, 2017, and thereafter amended on July 23, 2017), FGIC, Assured Guaranty Corp., Assured Guaranty Municipal Corp., and National Public Finance Guarantee Corporation commenced an adversary proceeding in the PRHTA Title III case seeking to enforce the special revenue protections of the U.S. Bankruptcy Code (11 U.S.C. §§ 902, 922(d), 928(a)), which Congress incorporated into Title III proceedings under PROMESA, with respect to special revenues pledged to secure the repayment of PRHTA bonds. On January 30, 2018, the Court granted defendants' motion to dismiss this adversary proceeding. On February 9, 2018, FGIC and the other plaintiffs filed a notice of appeal to the United States Court of Appeals for the First Circuit regarding this decision. Plaintiffs were seeking a declaration that defendants have violated Sections 922(d) and 928(a) of the U.S. Bankruptcy Code, and that efforts to compel defendants to transfer such revenues to pay for debt service on PRHTA bonds are not stayed pursuant to Section 922(d) of the U.S. Bankruptcy Code. Plaintiffs also were seeking injunctive relief prohibiting defendants from taking or causing to be taken any action that would further violate Sections 922(d) and 928(a) of the U.S. Bankruptcy Code and ordering defendants to remit revenues securing the PRHTA Bonds in accordance with such Sections. Plaintiffs also were seeking declaratory relief that all funds held in reserve accounts are property of the PRHTA bondholders and are being improperly withheld.

In *Financial Guaranty Insurance Company v. Alejandro García Padilla, et al.,* (D.P.R., Case No. 3:16-cv-01095, filed on January 19, 2016), FGIC sued Governor Alejandro García Padilla and certain other officials of the Commonwealth of Puerto Rico alleging Section 8 of Article VI of the Commonwealth Constitution ("Section 8," and defendants' stated basis for the Clawback (which is discussed in Note 6, Loss Reserves)), the Management and Budget Office Organic Act (the "OMB Act," and defendants' stated law regarding procedures implementing the Clawback), and the Clawback Orders (directing the Clawback) are unconstitutional on the grounds that they: (1) are preempted by federal law; (2) violate the Contracts Clause of Article I of the United States Constitution; and (3) violate the Fifth and Fourteenth Amendments of the United States Constitution. FGIC is seeking a judgment declaring Section 8, the OMB Act and the Clawback Orders to be unconstitutional, and also is seeking an injunction enjoining the defendants from taking or causing to be taken any and all acts under Section 8, the OMB Act and the Clawback Orders. On January 21, 2016, FGIC's action was consolidated with an analogous action brought by Assured Guaranty Corp., Assured Guaranty Municipal Corp., and Ambac Assurance Corporation. On February 10, 2016, defendants filed motions to dismiss FGIC's claims. On October 4, 2016, the District Court entered an order denying all defendants' motions to dismiss,

## 14. Legal Proceedings (continued)

except that it granted the motion to dismiss FGIC's claim that the Clawback was preempted by federal law. The commencement of the Commonwealth's PROMESA Title III proceeding stays this action.

On March 16, 2017, FGIC filed a motion for leave to intervene as a plaintiff in Lex Claims, LLC, et al. v. The Commonwealth of Puerto Rico, et al., (D.P.R. Case No. 3:16-cv-02374, filed on July 20, 2016), which case was filed by a group of holders of the Commonwealth's GO bonds challenging, inter alia, the validity of the Moratorium Act, the Moratorium Orders, and the availability of resources pledged to pay bonds issued by the Puerto Rico Sales Tax Financing Corporation (also known by its acronym in Spanish, "COFINA"). Before the District Court ruled on FGIC's motion to intervene, the United States Court of Appeals for the First Circuit, on April 4, 2017, ruled that the PROMESA Stay applied to all claims asserted by the original plaintiffs in this action. Therefore, FGIC's motion for leave to intervene was similarly subject to the PROMESA Stay. While the PROMESA Stay expired on May 1, 2017, the commencement of the Commonwealth's PROMESA Title III proceeding stays this action.

## 15. Commitments and Contingencies

In November 2016, FGIC entered into a lease agreement for new office space in New York City, with a lease term commencing on February 1, 2017 and ending on December 31, 2026. The lease requires FGIC to make specified monthly base rent payments, with annual escalations each February 1st.

As of December 31, 2017, future minimum rent payments under this lease are as follows:

| | Year ended December 31 |
|---|---|
| | *(In Thousands)* |
| 2018 | $ 507 |
| 2019 | 521 |
| 2020 | 535 |
| 2021 | 550 |
| 2022 | 565 |
| 2023 and thereafter | 2,419 |
| Total | $ 5,097 |

**15. Commitments and Contingencies (continued)**

Rent expense recorded for this lease for the years ended December 31, 2017 and 2016 was $0.5 million and $0.0 million, respectively.

Rent expense related to FGIC's prior office space for the years ended December 31, 2017 and 2016 was $0.1 million and $0.7 million, respectively.

**16. Subsequent Events**

Subsequent events described elsewhere in the notes to these financial statements include in Note 8, Loss Reserves, information about developments concerning FGIC's Puerto Rico-related insured exposures, and in Note 14, Legal Proceedings, information about developments concerning certain legal proceedings.

The date through which subsequent events have been evaluated is February 22, 2018.

EY | Assurance | Tax | Transactions | Advisory

**About EY**
EY is a global leader in assurance, tax, transaction and advisory services. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and for our communities.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. For more information about our organization, please visit ey.com.
